

## Take a College Class in the Privacy of Your Own Home!

The resource link below leads to a compilation of every college program offered online in Florida that is offered full and part time, and includes local colleges as well as more well-known ones. This database will be updated yearly and will always remain free and open. Higher education for all students and providing knowledge about what types of exciting higher education programs exist out there is important. We hope that our residents of all ages as well as our schools, counselors, advisors, parents and students will find it useful.

The site in the next link provides a comprehensive and informative resource that sorts out schools with accredited degree programs. It can be specifically filtered according to the degree level and the subjects/programs of your choice: Accredited Online College Degree Programs <http://www.accreditedonlinecolleges.org/degree-programs/> This is free to use and will remain open to all users.

An additional free resource that supplements this information may be found at <http://www.onlinecourses.com> This is a collection of open college courses that includes video, audio lectures, notes and much more given by professors at many colleges and universities, including Harvard, Princeton and MIT. This is a great place to explore additional educational topics and what college level classes have to offer.
